Sotogrande · Gibraltar · Costa del Sol

moodtailors.com

This rider sets out the sound, DJ and lighting equipment MoodTailors brings as standard, what we need from the venue, and the upgrades available on request.

Standard setup

Included as standard at every event.

Category	Equipment	Qty
Sound	Turbosound iQ15 — 15" powered full-range speaker	2
Sound	Turbosound iQ17B — 18" powered subwoofer	1
DJ	Professional Pioneer DJ decks and mixer	1 set
Lighting	LED ambiance lights	6
Lighting	Party lighting effects	2
Effects	Smoke machine	1

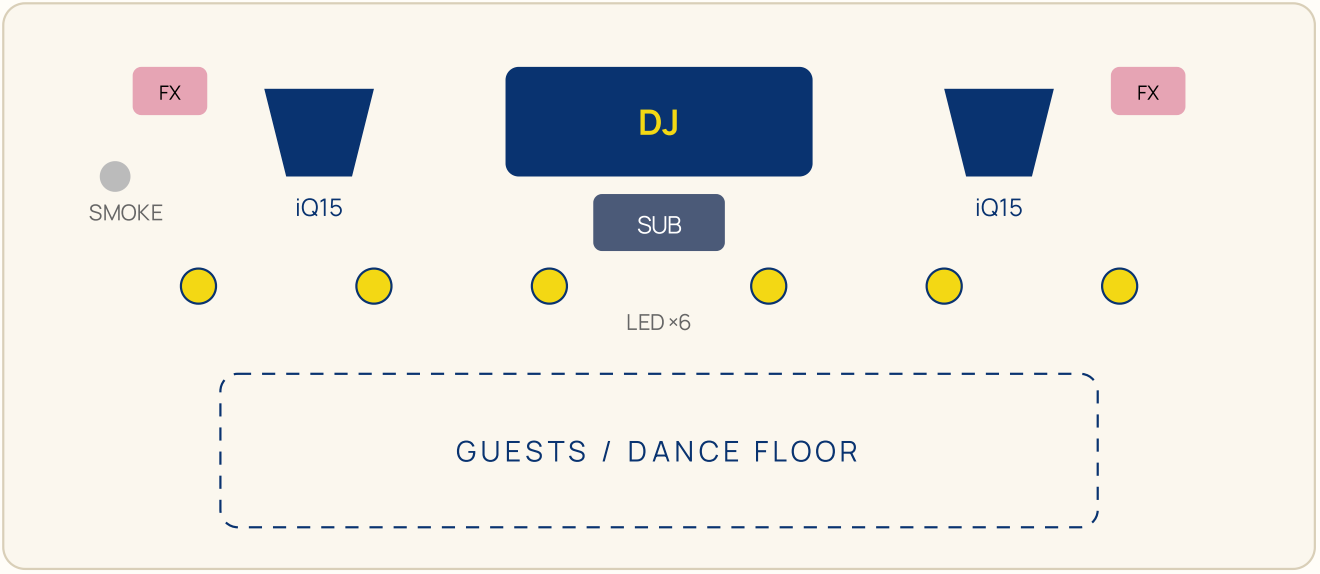

What we need from the venue

- A flat, level and covered area for the DJ booth, close to the dance floor.
- At least two 230 V power points near the booth (separate circuits recommended).
- Vehicle access, or a short and clear route for loading equipment.
- Time to set up and sound-check before guests arrive, agreed in advance.
- Shelter from rain and direct sun for outdoor events.
- Notice of any venue rules: sound limits, curfews or smoke/haze restrictions.

Bigger productions on request

- Additional speakers and subwoofers for larger guest numbers or spaces.
- Stages, truss and DJ booth structures.
- Extra lighting, uplighting and special effects.
- Ceremony and speech microphones, live sax or violin.
- Anything else needed, sourced through our trusted local supplier.

Stage plot (plan view)
